Jeff Flynn
Interim Chief Building Official
Summit County Building Department
970-668-4083
jeff.flynn@summitcountyco.gov

Dear Mr. Flynn,

I'm writing you with great interest to join the Summit County Building Board of Review. I have worked the past four years as a local residential energy expert for the High Country Conservation Center. I am currently a certified Building Analyst through the Building Performance Institute.

My expertise lies in residential energy efficiency, indoor air quality, home health and safety, and building science. Much of my experience comes from conducting inspections and blower door tests for residential new construction and through energy auditing for existing homes. The culmination of these tasks have placed me in hundreds of homes in the community consulting builders and homeowners how to save money and improve comfort through energy conservation efforts.

As an energy professional and certified Building Analyst, I understand the home as a system and how its inhabitants interact with their indoor environments. I understand how energy is used in a home and what efforts yield the greatest energy savings and impact on a homeowner's lifestyle. I believe my knowledge and experience would be of great value to the Board of Review in various home-energy capacities.

It has been a pleasure working with you on our community sustainable building codes and would appreciate an opportunity to talk with you to see where my skill set would be of the greatest benefit to the Board of Review.

Sincerely,

Cody Jensen
